Real, raw and wholesome food display

Design by RoughStuff, handmade by prisoners using English oak, raw steel and copper.

In Prison

We work closely with the Mount Prison in Hertfordshire who make all our boards. This brings new pride, skills and job discipline to the inmates.

We have a new state of the art workshop inside The Mount Prison. Around 20 inmates are employed Monday to Friday to keep up with the demand for our boards. Our talented workshop manager Steve trains the inmates in new skills for woodwork and the self discipline of having a job to manage.

When things are running smoothly we turn orders around within 2 weeks from receipt of an order but this can be affected by what happens in the day to day running of a prison.

We contract the prison to make our boards at an agreed commercial rate and that income is used to help with the running of the prison.

An inmate earns a statutory wage, this gives him a sense of worth and reward.

We also work with a prison in Northumberland to make our steel work.

RoughStuff are involved with Friends of the Mount Prison, a charity that encourages local community involvement.

RoughStuff's rustic boards and food displays are simple by design, natural and handmade.

Proof is in the eating

We have made boards for the likes of James Martin, Carluccio's, The Grove, Sky, Harry Ramsdens, Goodwood Park Hotel, London Zoo, The Cutty Sark, Radisson, Celtic Manor, Holroyd Howe, Baxter Story, Ampersand, BBC and Lloyds of London as well as over 300 independent restaurants.

Tailor-made

If you can't find a board to fit we'll design and make one for you. We can also hot brand your boards with your own logo.

Beyond boards

We design food displays, furniture, and even restaurants. We also have our own RoughStuff pottery specialising in hand thrown ceramics.

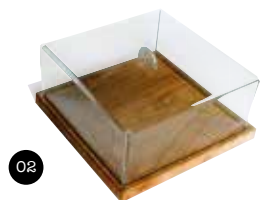

Individual and locally sourced

We try wherever possible to source locally, our oak is guaranteed to come from the UK and our pottery comes from Wiltshire. Where possible each board is made from a single piece of English oak, creating an individual and rustic quality. Every oak board is kiln-dried to a set moisture level and treated with anti bacterial food safe oil.

Over many years designing products for table service RoughStuff has learnt that presenting a wholesome food product on a natural oak board can increase sales and margins.

Where possible we make all our boards from a single piece of oak which minimises splitting and hygiene issues.

We provide a bespoke design service to customise your board to your requirements; to hold a ramekin, create a drip groove or simply create a funky shape.

Create a real brand experience by **hot branding** or digitally etching your logo into our oak boards. Simply send us your logo and we'll do the rest.

- 110 Oak display table with porcelain hand thrown pots

Hand Crafted Signs

We design and hand craft signs to suit your environment and communicate your brand. The use of natural materials and an inventive eye can make a simple sign truly unique.

Product Display

The RoughStuff designers apply the same principle to product merchandising. A simple, natural oak stand can enhance the presentation of your products and promote a sense of organic quality.

Oak point of sale works equally well in your hotel room as it does in a retail store.
